

44/168 DNA biosynthetic process

55/264 DNA replication

36/125 DNA integration

32/199 obsolete nucleic acid phosphodiester bond hydrolysis

33/243 DNA repair

8/24 obsolete mitochondrial genome maintenance

97/599 DNA metabolic process

14/55 telomere organization

34/158 DNA recombination

15/79 DNA conformation change

14/55 DNA geometric change

41/317 G protein–coupled receptor signaling pathway
